Acknowledgement of Risks

On silent meditation retreats people can experience intense and unusual psychological, spiritual and/or physical states. Retreats may not be helpful for people with particular psychological conditions. At this particular retreat centre in Springbrook it is dangerous to stand close to the edge at the top of the waterfall and there are risks associated from walking in the bush, where there may be snakes, ticks, spiders and leeches.

In voluntarily participating on this retreat I am aware that I may be exposed to risks that may lead to psychological issues, injury or death. I have considered the risks before choosing to sign this form. I still wish to participate in the retreat. I accept that in signing this form I will take full responsibility and liability for my own property, health and safety.
